## TENDER CARE

### NORTH CENTRAL RAILWAY ALL SET TO COMMENCE LOADING OF CEMENT FROM DADRI (NEAR Noida)

- Indian Container Depot Dadri was given the status of a Private Freight Terminal in March 2021 to enable loading of commodities instead of container.
- ICDD is the most important loading point for NCR earning significant revenues for Railways.

Indian Container Depot Dadri (ICDD) of Prayagraj Division has received nod from Railway Board to start outward loading of cement thereby fulfilling the long standing requirement of a cement loading point near the industrial hub of Noida and Greater Noida. ICDD Dadri has been an important loading point for NCR with an average loading of 6 container racks per day. Average monthly revenue accrued to Railways from loading of container racks is approx 17.5 crores.

In view of demand explored as a result of aggressive marketing by North Central Railway for loading of other commodities in addition to the containerised traffic, ICDD Dadri was given the status of Private Freight Terminal on 12.03.2021 with facility of inward traffic. Due to certain technical requirements, outward loading from the terminal required clearance from Railway Board which NCR made focused efforts. On 23.06.2021, Railway Board gave its nod for commencing outward cement loading. The move not only will bring relief to the cement merchants of Noida and nearby area, but also will yield significant revenue for Indian Railways.

Hitherto, local cement merchants which used to transport cement through roads will now be able to transport their products to far off destinations with lesser transit time and reduced transport costs.
